## BACON SAYS NEW MEXICAN POLICY WILL BE APPROVED

By Associated Press.

Washington, D. C., November 3.—A declaration that the policy of America in the Mexican situation would meet the approval of the American Congress and the American people was made in the Senate today by Chairman Bacon, of the Foreign Relations Committee. Senator Bacon was speaking of a letter read into the record of Senator Bristow, who said he had received it from a friend "of thirty years standing in Mexico." The writer urged that the United States keep its hands off and allow Mexican factions to fight out their differences, condemned the neutrality policy which keeps "thousands of American soldiers on the Mexican border", and declared that if the

United States intervened by military force it would mean "only conquest and the acquisition of Mexican territory by the loss of hundreds and hundreds of millions dollars of money." "I think I can assure the Senate," said Bacon, "that nothing is further from the thoughts of the people and the officials of the United States, than the conquest or acquisition of Mexican territory."

"The time has not yet come when this matter may be properly discussed, but the time is not far distant when we must discuss it. I can give assurance that the matter is having the most careful and conscientious consideration, and whatever may be done will meet the approval of the American congress and the American people."

## LIND IS GAINING FOREIGN SUPPORT

By Associated Press.

Washington, D. C., November 3.—Reports from John Lind, President Wilson's personal representative in Mexico, concerning his recent conferences in Vera Cruz with the Russian, German and Norwegian ministers to Mexico, conveyed the impression to President Wilson today that there was a disposition on the part of those diplomats to co-operate with the United States in lending their support to the plans of the Washington government for solving the situation. No announcement was made here today as to any new policy.

## SPANISH OFFICER IS SHOT AT DAWN

By Associated Press.

Madrid, Spain, November 3.—A firing squad of Spanish troopers at dawn today executed Capt. Manuel Sanchez, Spanish officer, found guilty of the murder of Don Garcia Jalon, wealthy landowner, last May. Capt. Sanchez was tried and condemned for the crime as a sequel to the confession of a woman, Louisa Sanchez, said to be his daughter, who was sentenced to 12 years imprisonment as an accomplice. Jalon was missing for several weeks after he had won about \$1000 at cards and the evidence showed that he had been enticed to Sanchez's flat and murdered there by the officer, who, with the woman, cut up his body and threw it into an adjacent sewer.

## FINAL THAW BRIEF FILED

By Associated Press.

Concord, N. H., November 3.—The final brief for Harry K. Thaw in connection with his efforts to resist extradition from New Hampshire to New York, was filed with Governor Felker today. The brief states that the requisition is not in accordance with the rules of practice; that the laws of New York were violated in obtaining the indictment, and that the requisition is not made in good faith. The activity of William Travers Jerome in obtaining the indictment and his language at the hearing before the Governor are attacked.

THE MAN WHO CONTROLS THAW'S FATE.

GOV. FELKER

Concord, N. H., November 3.—Governor Samuel D. Felker of New Hampshire will decide the fate of Harry K. Thaw. If the governor refuses to sign extradition papers the fugitive need not return to the jurisdiction of New York state, in spite of the fact that he has been indicted. Felker says Thaw will be given every opportunity to have a fair and impartial decision in his case.

## POLICE CERTAIN MURDERER CAUGHT

By Associated Press.

Cincinnati, O., November 3.—Local police today positively identified the photograph of the negro held under the name of William Campbell at Montreal, Canada, as a likeness of Charles Jones, wanted in Cincinnati for the murder of a white woman, Bertha Courtney, who was beheaded and her body thrown into a sewer. Chief of Police Copeland said he would endeavor to have the Montreal prisoner returned to Cincinnati.

## MINISTERS URGE CITIZENS TO USE BALLOT TOMORROW

Washington Pastors Point Out Reason Why Every Man Should Avail Himself of Opportunity to Cast His Vote.

RIGHT OF FRANCHISE IS HELD TO BE VITAL DUTY.

Local Citizens Urged to Vote for Morality in Proposed New Laws and For the Uplift of the Community and Municipality—Say Much Depends on Result of Tomorrow's Vote.

"Vote and vote right" is in brief what local pastors urged from the pulpit in their sermons Sunday.

The various pastors called attention to the questions of vital importance that must be determined at the polls, and urged every citizen to cast his vote for what he believes is for the public good and moral uplift.

No uncertain words were used in calling attention to the new laws proposed, and to cleanliness of officials chosen to hold public office.

The following extracts from various sermons, will be of deep interest to all local citizens:

REV. A. W. WEST.

At the First Baptist Church Sunday Rev. A. W. West delivered a strong sermon on "Our Citizenship" and among other things said:

"We are now at a crucial time in the affairs of our state and community. Great issues are at stake and local conditions call for readjustment. We have much in the way of public institutions and private character of which to be proud, but there is great danger of lessening the efficiency of such and of losing some very important rights by a possible neglect of duty at the polls. Neglect of duty is a crime. The fellow who has a right to vote and will deliberately refuse to take up such issues as the Short Ballot, the Anti-

Shipment bill and his local municipal affairs is not a true citizen but rather a hindrance and a menace to the welfare of his people.

"As we rejoice in the greatness and glory of our country, as we believe in the possibilities of our own community, let us hope that every man whose responsibility is especially marked by his right of franchise will remember the importance and sacredness of his duty on Nov. 4 and assert himself at the polls."

REV. WM. BOYNTON GAGE.

The following is an excerpt from Sunday morning's splendid sermon by Rev. Gage, pastor of the Presbyterian church:

"The duty of every Christian at the ballot box is plain. First of all to vote. Let him not commit a sin of omission. Then to see that only those are raised to power of whose character he approves.

"On the morning of election it is well to carry over the words of Psalmist, where he asked: 'who shall ascend into the hill of the Lord'—that is who shall hold public office, and then answers saying: 'he that hath clean hands and a pure heart who hath not lifted up his soul unto vanity or sworn deceitfully.'"

REV. F. E. ROSS.

Rev. Frederick E. Ross, of Grace church, called especial attention to proposed Small Legislature Amendment and urged the people to vote against it. He charged this attempt of the liquor interests to control future legislation by routing out rural members of the legislature.

Rev. Ross urged the adoption of the amendment prohibiting the shipment of liquor into dry territory.

On the local situation, Rev. Ross said: "No man in Washington should fail to cast his ballot Tuesday. This election is one of vast importance to Washington.

"The issue in the election is one of common decency and men should vote on the right side. Conditions in this city have been growing bad for months, and recently have become intolerable."

## BULL MOOSERS MAY LAND IN KENTUCKY

By Associated Press.

Louisville, Ky., November 3.—With the possible exception that a few Progressives may succeed Republican members of the Kentucky Assembly, no changes generally are anticipated in the membership by tomorrow's elections. Interest throughout the state centers in the local struggle between Democrats and Progressives in Louisville.

## COLLAPSE OF 4-STORY BUILDING KILLS TWO

By Associated Press.

Hartford, Conn., November 3.—The entire side of a four-story brick house collapsed early today and crashed through the frame dwelling of John Hughes adjoining it. As a result two persons are dead, three fatally injured and another seriously hurt. The dead are John Hughes, 59, and Eva Dooty, 5, his granddaughter.

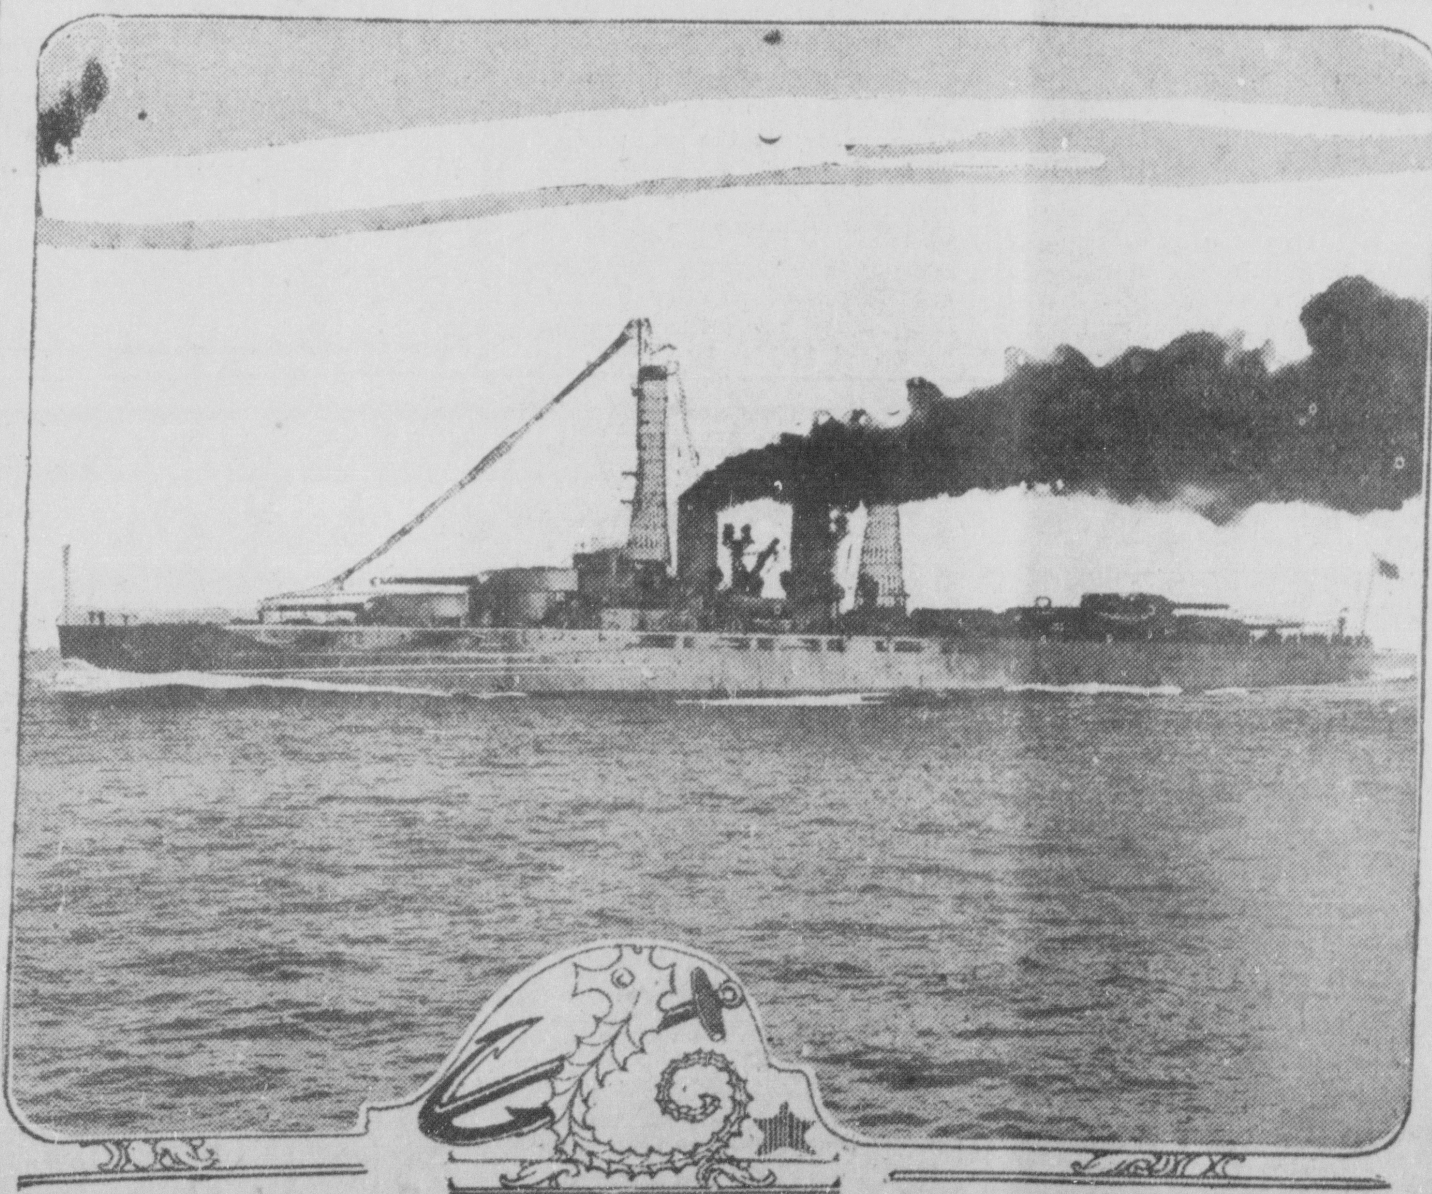

## LEADING BUSINESS MEN TO GUARD STREET CARS

By Associated Press.

Indianapolis, Ind., November 3.—No effort was made up to noon today to resume street car service which has been tied up since Friday night by the employees of the Indianapolis Traction and Terminal Company, although a special guard of police were detailed to guard strike-breakers. The strikers and sympathizers flocked so thickly near the street car barns that

the cars were not run out. The crowd kept quiet and orderly but watched near the barns. Bankers, ministers and professional men are to be used as guards in order to allow the police to devote their whole time to prevent destruction of property. Sheriff Porteus served summons on 200 representative business men today ordering them to report for guard duty as deputies later in the day.

The newly built battleship Texas, which was recently sent to New England waters for her speed tests, is the largest fighter in the navy and carries a heavier main battery than any other American ship. She is a sister ship to the New York, now being built at the Brooklyn navy yard.

## Don't Forget Mr. Voter

At the election, tomorrow, the people of Ohio will determine—

- 1st. Whether we shall have the Short Ballot in Ohio, abolishing the election of State Officers.
- 2d. Whether we shall have the Short Ballot for Township and County Officers.
- 3d. Whether State, City, Village, Hamlet, Township, Road District and School Bonds shall be exempted from taxation.
- 4th. Whether women shall be eligible to appointment as Members of Boards of or position in departments and institutions affecting or caring for women and children.
- 5th. Whether we shall have a Small Legislature, which would mean that the chance of Fayette county having her own Representative would be so remote as to be practically an impossibility.

If you are interested, Mr. Voter, in these vital questions, Go to The Polls and Vote

### ENEMIES WOULD INDICT SULZER

Subornation of Perjury Alleged Against Former Governor.

New York, Nov. 3.—Machinery was set in motion to secure the indictment of William Sulzer in Albany county for alleged subornation of perjury. An outcome of the same activity may be the investigation of the acts of John A. Hennessy at Sing Sing prison by the grand jury of Westchester county. The charge against Sulzer will be based upon his alleged effort to induce Duncan W. Peck to testify falsely before the Frawley committee, as Mr. Peck said when he appeared as a witness at the impeachment trial.

## WARM ELECTIONS THROUGHOUT OHIO

### PROPOSALS GO TO OHIO VOTERS

Five Amendments and a Statute to Be Submitted Tomorrow.

### LIKELY TO PULL MANY TO POLLS

Heavy Vote Expected in the State's Larger Cities, Where Sharp Contests Have Been Waged—Muddled Conditions Reported From Many Points—Review of the Situation On the Eve of the Elections.

Columbus, O., Nov. 3.—Due to the fact that five constitutional amendments and one statute are to be submitted to the people at large for their acceptance or rejection, a comparatively heavy vote is expected at the municipal and township elections in Ohio tomorrow.

Two of these submitted proposals relate to the temperance question. One, advanced by the liberals, seeks to reduce the size of the general assembly, and base the representation upon population rather than upon the county unit. The other, proposed by the temperance forces, is aimed at the strengthening of the law against the sale of liquor in territory voted dry.

Because of the contests for local office in the municipalities and of the warfare on the summary questions there seems to have been an overshadowing of concern for the other submitted constitutional amendments, two of which propose the reduction of the number of elective state and county officials. The others provide for the exemption of public bonds from taxation, and for clothing women with the right to be appointed to boards of, or positions in departments and institutions affecting or caring for women and children.

In the large cities of the state a heavy vote is predicted. Cincinnati Democrats are claiming that Mayor Henry T. Hunt will be re-elected over Judge Frederick Spiegel. Republicans, however, challenge this, predicting that Spiegel will go in by a decisive plurality.

In Cleveland, it is said, the chances favor the re-election of Mayor Newton D. Baker, but there are many disturbing factors. One is that he is seeking the office as a nonpartisan, the Cleveland charter having abolished party tickets. The official ballot is entirely novel, providing for second and third preferences, and experience teaches that new things tend to confusion in elections. Organized labor, as represented by the Federation of Labor Councils, which has always stood behind Baker, is on the side of his opponent, Harry L. Davis. Baker is a strong favorite in the betting.

#### Independents Divided.

In Columbus the election of Mayor George J. Karb, Democrat, over ex-Mayor George S. Marshall, Republican; L. B. Tussing, Independent, and Southard, Socialist, is anticipated. In Toledo the once formidable independent movement, which kept Golden Rule Samuel Jones and Brand Whitlock at the head of municipal affairs, is rent in twain, having two candidates, Cornell Schreiber and Judge Charles M. Chittenden. This seems to favor Carl Keller, the Republican nominee.

In Dayton the citizens will vote only for five commissioners, upon non-

partisan tickets. The Socialists have put out a list in opposition to one selected by a composite committee representing the older parties, but, aside from one personally strong nominee, their prospects are almost nil. The low registration indicates lack of feeling. The same is true of conditions in Springfield. There is likewise a vague situation in Hamilton, where, as a consequence of the flood last spring, there has been launched a citizens' nonpartisan movement to elect Charles E. Mason, a veteran Democrat, as mayor.

At Youngstown Mayor F. A. Harstenstein, Republican, running for a second term, bases his claim for reelection on his policy of closing the resorts of that city. Frank W. Rockwell, present mayor of Akron and candidate for reelection, and John W. Gauthier are looked upon as most likely to be successful in the race. Rockwell is a Progressive and Gauthier the Democratic nominee.

The three-cornered fight for mayor of Zanesville has complicated the situation to a greater degree than in any previous campaign. The candidacy of Fred Winchell on a citizens' ticket, supported by the Bull Moosers, makes the result uncertain. Mayor John A. Schofield, Democrat, is a candidate for reelection.

Sandusky, Lima, Marion and other towns report muddled situations. At Lima Corbin N. Shook, Independent, is in the mayoralty race. Shook was elected mayor two years ago as a Socialist, and was ousted by the local Socialists before he took his oath because he named Republicans and Democrats to his cabinet.

### PIKES PEAK NOT SINKING

Denver dispatches stating that recent Government surveys show that Pikes Peak has sunk 39 feet in the last three years are easily explained. Somebody has simply been comparing the exact altitude of the mountain, recently determined by the United States Geological Survey as 14,109 feet, with old railroad or barometer figures of elevation. As a matter of fact, to have come within 40 feet of the actual elevation shows a good job of surveying for the early days when Indians were plentiful and instruments poor, for, after all, there is no royal road of determining the altitude of any point. It has to be done today just as it had 100 or 1,000 years ago, by a series of sights from the ocean shore. To obtain the elevation of Pikes Peak means that surveyors have had to run levels all the way from the Atlantic Ocean, to the Pacific Ocean, to the top of the mountain. Thousands of sights had to be made.

Of course, when the Geological Survey about five years ago established the exact elevation of Pikes Peak the engineers did not start at the sea level; they took the nearest point to the peak which had been previously determined by former level surveys. When the summit of the peak was reached a bronze tablet with the following inscription was cemented into the rock:

U. S. Geological Survey, George Otis Smith, Director, PIKES PEAK, Latitude 38 degrees 50 minutes 26 seconds, Longitude 105 degrees 2 minutes 37 seconds, U. S. Standard, Elevation above sea 14,109 feet, 1908.

## Go and Vote Tomorrow

Tomorrow is election day and on that day the executive and legislative officers who will for the next two years execute the laws of the state and the ordinances of the municipality and enact such additional legislation as the particular needs of the community require, will be chosen.

In many respects the election tomorrow is of the utmost importance. The result of the balloting will, in a great measure determine whether the community is to go forward or go backward, whether it is to be prosperous or the reverse.

The officers elected tomorrow will be charged with the duty of determining whether public improvements shall go forward or proposals to make the necessary changes in material conditions shall be blocked. They will be charged with the duty of assessing and apportioning the burdens of the public revenues and with the duty of expending the public money.

More than that the known character of the men declared the victors when the count is concluded tomorrow night, will be of immense importance in establishing the reputation of the city abroad.

No good citizen should fail to vote tomorrow. It is a duty which he owes to organized society and to himself and to his family.

There is no satisfactory excuse which an able-bodied man can offer for failure to go to the polls and vote.

No other citizen has a right to criticize his neighbor's opinion on political matters—no man has a right to complain because his neighbor does not vote as he votes; but every good citizen has a perfect right to complain of his neighbor who refuses or fails to vote.

The man who refuses or neglects to vote is refusing to discharge his honest debt to the government which protects his life and property, preserves the conditions which make his business profitable and guarantees to him and his children the right and the opportunity to live and prosper.

Few men indeed would be guilty of so gross a dereliction regarding private obligations.

Strange to say there are men who are honest through and through, men of keen knowledge, fully appreciative of every personal obligation in private affairs, who fail utterly to recognize the debt they owe to the public on election day.

Although the election tomorrow will mark the close of an exceedingly quiet and decently conducted campaign, locally, the voters should not allow themselves to forget its importance, neither should they, on that or any other account, default in the discharge of a solemn duty.

With a full vote cast in Washington tomorrow, no man can justly complain at the result no matter what it is. This is a nation builded on the belief that the majority should rule and when the majority actually declares the result, satisfaction with the result follows. When the minority is allowed to control, especially in local affairs, dissatisfaction is certain to follow.

The only way to close a campaign is for the majority of the voters to enter up the final decree. In fact a campaign is never closed until the majority has expressed its opinion.

The only way to settle the issues tomorrow and to choose a corps of officials with whom the voters will be satisfied is for every voter in Washington to go to the polls and vote.

Vote as your conscience and your judgment dictate BUT VOTE.

Permit no man to tell you how to vote. Allow no man to quarrel with you about the way you have cast your vote, but above all do not permit yourself to drift into a condition where your neighbor can justly complain at your neglect to vote.

These few observations on the eve of the election are intended for every man who is laboring under the mistake that he is not interested enough to go to the polls and vote.

Every man is interested in seeing to it that his sentiments, his beliefs and his preferences are recorded at the polling place tomorrow.

The government is entitled to an expression of opinion from every voter on every issue.

Voting is no longer a privilege only.

Voting is a duty. Go out and vote.

## INTERESTING BITS OF NEWS

(By John E. M. Kerr.)

On Monday at the Engineering Societies' building, New York City, was opened the first international philatelic exhibition ever held in this country. Stamps from all parts of the civilized world are shown by about 300 collections. The total estimated value is more than \$2,000,000. Some of the varieties have a market value of from \$5,000 to \$9,000 each, being the only copies known. The awards consist of silver cups and gold medals.

Promoted by the department of agriculture, the annual Chrysanthemum show opens at Washington City on Wednesday. More than 1800 plants, including many unusual varieties, are on exhibition. One regarded as the handsomest of the plants in the collection has bright yellow petals measuring more than 9 inches from the center of the flower to the tip. Many unusual seedlings, yet unnamed, are being shown. The exhibit lasts two weeks.

The Sphinx of Rameses II, a large granite figure of a lion, with head of Pharaoh of the Oppression has just been received by the university of Pennsylvania. The sphinx arrived three weeks ago, and all the intervening time has been used in getting from the vessel. It is now in place and is the largest Egyptian relic in this country, with the exception of Cleopatra's Needle in Central Park, New York. The Sphinx is in good condition except for the head, which has been disfigured by sand storms through 3000 years.

Fortunes are made in waste paper by large collectors. The papers, after being collected, are sorted with precise care. The experts know instantly the grade, of which there are hundreds, and to put the best paper with cheaper bundles would mean in the aggregate an enormous waste every day. It is said that 100,000 tons of waste paper are shipped every day from New York City. In case of big building owners selling contracts for allowing the paper collectors to take the paper. One of the big buildings in New York demanded \$135 a month for the privilege of carrying off the waste paper. One of the big newspapers in New York sells every week something like 60 tons of waste paper, including over issue and discarded exchanges from other papers, besides office copy.

Increase in the parcel post mail in New York City is pronounced as most impressive. The volume of mail handled in the city right now is heavier than the volume heretofore handled during the holiday season. One day a single business house delivered to the Pennsylvania terminal 17,000 parcel post packages, addressed to all parts of the country. It put the postal service to test put it was moved, however, on scheduled time.

## Frail, Weakly Child

Made Strong by Vinol.

So many cases like this are coming to our attention for the benefit of fathers and mothers of weak, sickly, ailing children in this vicinity we publish the following letter:

Mrs. J. P. Weatherford, Litchfield, Ill., says: "We have had an invalid child for the past nine years and until we began using Vinol, we sometimes thought there was little hope for him. He would have terrible coughing spells at night, and they would leave him so exhausted. We tried everything, but to no avail. At last some one suggested that we try Vinol, and we noticed a change in him from the very first. The coughing spells ceased and he gained in strength right along. We would not be without it and would advise parents who have frail and weakly children to try Vinol."

This is because the child needed the strengthening cod liver elements and the tonic iron that Vinol contains. No oil, delicious taste. Children love it. We give back your money if Vinol does not benefit. Blackmer & Tanquary.

## Train Children as Sensibly as Dogs

By Professor H. C. KRIBS of the University of Pennsylvania

WHEN WE LEARN TO TRAIN OUR CHILDREN AS SENSIBLY AS WE DO OUR DOGS WE WILL QUICKEN THEIR ATTENTION FOR A BRIEF PERIOD EACH DAY ON THE SUBJECT WE WOULD HAVE THEM LEARN AND THEN ALLOW THEM TO GIVE PHYSICAL EXPRESSION IN SOME PRACTICAL WAY.

In the past people have had the impression that the mind of man and the minds of animals were separated by a very wide gap, but we have learned that there is LITTLE IF ANY DIFFERENCE IN THEIR METHOD OF FUNCTIONING. For instance, we know that animals' ability to adapt themselves to altered environments is strikingly similar to the processes undergone by human minds as they develop.

This does not mean that the ultimate crystallization of mind in man and animal is exactly alike. It does mean that they do DEVELOP ALONG THE SAME LINES, and this discovery has given us a tremendous impetus in our appreciation of what should be the correct training of human beings.

## New Feature Introduced in Service

A new feature was introduced in the Sunday evening services of the Presbyterian church, Rev. Gage illustrating the scripture reading with stereopticon views. The innovation met with the approval of a very large audience.

Rev. Gage gave a masterly review of Winston Churchill's much talked of novel, "The Inside of the Cup" and will review "V. V.'s Eyes," by Harrison, next Sunday night.

The choir furnished special music and Mrs. Burgett, Messrs. Bowman and Kibler sang a beautiful trio.

## Purcell House Sells at Auction

The property stands in the central part of Bloomington on the Main street.

# To The Voters of Washington C. H., Ohio:

**T**HERE is a feeling, not only in this town but throughout the entire State, that the election on Tuesday of this week is not important. This is all wrong. Seldom have the people of this community had a more important election.

**First**—We will choose all the men who are to run our city government for the next two years. We have learned by experience that our city government touches every home and every life in the city.

**Second**—We have two very important Constitutional Amendments. We should all vote "NO" on the Small Legislature, because if this amendment carries it will take this county's Representative away from us.

**Third**—We should vote "YES" on the Anti-Shipping Bill, because it is one more step forward in the enforcement of temperance laws.

At an election as important as this it is very necessary that each voter go to the Polls and vote early.

**COMMITTEE.**

## FAST SPRINGFIELD HIGH TOO MUCH FOR LOCALS

Ninety-eight to seven is the way Washington High went down to defeat at the hands of the crack team at Springfield Saturday afternoon, in a game which was decidedly one-sided, notwithstanding the local boys hammered away with dauntless spirit. The number of points scored broke all records for the 1913 season.

The game is described in part by the Springfield Sun as follows:

"Outclassed and outplayed in all departments of the game, with their star quarterback carried to the side lines on account of injuries, the Washington C. H. boys kept plugging away with fighting spirit. Their lone touchdown came in the third quarter."

When Frayne, the left-end scooped up the pig skin that had been fumbled by Springfield and raced 30 yards across a clear field for a touchdown. It was their only chance to score and they made good use of the opportunity.

"In 50 minutes of play the score was rolled up at the rate of nearly two points per minute."

"Throughout the game the visitors only made a half dozen first downs, two of them being toward the close of the game when some trick plays were tried. Craig caught the ball on a forward pass and went 25 yards, this being their longest gain with the exception of a touch down."

## PURCHASES LOT IN JEFFERSONVILLE

Mr. George W. Baker has purchased the J. W. Howard lot near the Serbine Bakery in Jeffersonville, and will probably erect a building on it immediately for the storage of his new motor-bus which will be kept in that town when not in use making trips between South Charleston and Jeffersonville.

The deal has led some to believe that Mr. Baker has not given up the hope of extending the traction to Jeffersonville, and that when he does he will have a site for a station.

### FOR TOWNSHIP CLERK.

## Views Of Others

### THE SUNNY SIDE OF LIFE.

Lead a natural life.  
Eat what you want  
Walk on the sunny side of the street.

These rules are simple, but they might not be so very easy to carry out as they seem. No, all people are able to lead natural lives if they would. Not all who have stomachs sound enough to eat whatever they want have money to buy, and not all who have money to buy whatever they want to eat have stomachs sound enough to digest it. And not every man's way to work and duty lies on the sunny side of the street. Yes the pessimist always has arguments at hand.

Life has shadow places, and we could not ignore them or get free from them if we would. It would be foolish to attempt to cultivate cheerfulness by denying the existence of the evils which curse humanity.

To live naturally is to live not for ourselves alone. Man is a social animal in his sympathies as well as in his associations. It is on the shadow side of the street that our sacred duty lies.

But it is a good thing to remember that we can do little in the dark places unless we carry sunshine into them. We can do little for the sorrowing unless we have smiles of our own. Genuine cheer can be transmitted only from a cheerful heart.

It is easy to have a smile for the sorrows of others, the pessimist will say, but our own sorrows are not so easily gotten rid of. Well, that is not true. Our own sorrows are chiefly of yesterday and tomorrow. We borrow them mostly of imagination and fear. Real troubles are easily borne; it is the imaginary ones that are intolerable.

A walk on the sunny side of the street will dispel the delusion.

True, life has its real tragedies and its pains from which there is no escape. When death takes those we love, or when disease seizes us, or misfortune apportion us a pinched face and laborious old age, no maxim about the sunny side of the street will cause the sun to shine.

But it is still true that happiness and discontent are in the main a state of the mind. Nine-tenths of the little ills and worries would disappear if the will were resolutely set against them.

Actual afflictions we learn to bear. The crippled, the hopelessly diseased and the poor have, since time began, taught us our lessons in patience and cheerfulness.

But unhappiness that comes of absorption in self, fills the world with doleful moaning.

It is the gloom of self-absorption that darkens our side of the street.

We can get out of it if we will. The natural life is the life that carries sunshine with it wherever it is.—Athens Messenger.

They are the richest in food value of any fruit  
When properly prepared they are the most appetizing and satisfying.

They have a distinct medicinal value, exerting a direct and beneficial action upon the liver.

In preparing them for the table don't merely allow them to swell. Stew them until the syrup is very heavy. Served with cream they make a very dainty dish.

## TEAR OUT TERRACE WALL FOR ALLEY

In order to pave the court house alley full width, it has been found necessary to remove the terrace wall along the court house lawn near the county jail, tear away part of the embankment, and replace the wall.

By tearing out the wall and placing it back some 18 inches, the lines of the alley are kept straight and a full width alley is the result.

So far the paving has been all but completed on the alley between Market and Temple street, and the brick will soon be placed on the alley east of the court house, extending from Court to Market streets.

## STIR CREATED IN MEXICO CITY

Dictator's Administration Professes Confidence That the French Bankers Will Come to Its Assistance—Rebels Withdraw From Monterey and Wreck the Town of Montemorelos. Federalists Hold Chihuahua.

Mexico City, Nov. 3.—There was a run on many banks in Mexico City on account of a report that the government was in dire straits for money and intended imposing a tax of 15 per cent on all deposits. The finance minister denied the truth of this report, saying it is absurd to suppose that the government would be capable of an action contrary to the elementary principles of political economy. The Mexican government, he added, is anxious to get the support of foreign capital and would not do anything to increase foreign complications, which would be the result of taxing deposits, as almost all the banks here are controlled by foreign capital.

The banks delivered \$4,000,000 to the government, the balance of the loan of \$9,000,000 made recently. With this money the government employees and federal soldiers were paid. The option on a French loan of \$25,000,000 expires on Dec. 1, and the government professes confidence that the French bankers will come to its aid.

Rebels who withdrew from Monterey captured Montemorelos, in the state of Tamaulipas, and destroyed more than half the city before they were compelled to evacuate by a federal force. Linares, which also was threatened by the Constitutionalists, has been relieved.

The federal garrison of Fresnillo has evacuated the city, being outnumbered by the rebels. It is expected that the rebels will soon attack Chihuahua, but the governor of the state telegraphed to the government that he has 6,000 troops and is able to defend the city.

## ELECTIONS FRAUDULENT

Huerta Certain to Remain in Control of Mexican Affairs.

Washington, Nov. 3.—There is an air of waiting in administration circles with regard to the Mexican crisis, and President Wilson seemingly will delay action until he receives more definite information in regard to Provisional President Huerta's program. Washington adhered to the belief that Huerta will remain in control of affairs in the Mexican capital, whether as president or dictator matters little, but certainly at the head of the armed forces of the country. It is pointed out that as commander-in-chief of the army Huerta would be powerful and would also be an undesirable element in the Mexican government, apparently intolerable to President Wilson. At the same time Huerta could retain his military rank and power and also keep his pledge to the world that he does not intend to continue in the presidential office.

The administration expresses no surprise at the reports from Mexico City that the elections held one week ago were fraudulent.

It is the logic of the situation that is forcing everybody here, army and navy officers, diplomats, members of congress and students of international events, to the conclusion that the Mexican situation is leading direct to forcible intervention, or at least a threat of force. The only alternative seems to be a voluntary elimination of Huerta and his followers or a complete reversal by President Wilson of his policy toward the Huerta government.

## BRITISH READY FOR PANAMA BUSINESS

By Associated Press.

London, Nov. 3.—British ship-owners and merchants, in every line of produce and manufacture, have carefully laid plans for any change that will come over the trade of the world as a result of the opening of the Panama Canal.

All the big shipping companies that have interests in the countries directly benefited by the new waterway have either added to their tonnage or made preparations for doing so, and in every case it will be found that the steamers built or building are generally of the size considered most suitable for the transit of the canal. Coaling stations are also being arranged for in order that steamers using the canal may coal, if necessary, between Colon and England and generally speaking, everything possible is being done to enable England to hold the supremacy she has attained in the world's maritime trade.

Englishmen, however, always conservative, do not believe that the revolution will be an immediate one. They are planning for a gradual expansion of trade which the ships now in existence or in prospect will be quite able to take care of.

## GOVERNMENT ASKS FOR REAL ACTION

## SEEKS DISSOLUTION OF HARVESTER TRUST

McReynolds Files Brief In Federal Court at St. Paul.

Washington, Nov. 3.—Persons who have been seeking light on the policy of the Wilson administration toward the dissolution of industrial corporations accused of having violated the Sherman anti-trust law will find it in a brief filed today with the United States district court at St. Paul, in the final argument of the suit to dissolve the International Harvester company.

In the suit against the \$140,000,000 harvester company Mr. McReynolds insists that the court shall order things in such a way as to bring about a dissolution in fact as well as in theory. "In order that the plan may establish a condition in honest harmony with the law, it is imperative that it shall disintegrate the business of the principal defendant in such a manner that no two of the disintegrated parts shall be acquired by or come under the control of companies having common stockholders or companies otherwise under common control or influence."

This request by the attorney general is interesting not only as reflecting his views toward the proposed dissolution of the Harvester trust, but as indicating what his attitude is likely to be in seeking the dissolution of the United States Steel corporation.

The attorney general asks that a decree be entered at once against the International Harvester company adjudging it to be an unlawful combination and monopoly.

## HITS FOREIGN BREWERS HARD

Attorney General Hogan's Ruling Will Cause a Big Protest.

Columbus, O., Nov. 3.—Under Attorney General Hogan's recent ruling given to the Ohio liquor licensing board, foreign brewers doing a retail business in Ohio, maintaining storage depots and distributing warehouses, are entitled to but one license, either retail or wholesale, in one place in the state, and must not be interested financially in any other place in the state where liquor is sold. While the foreign brewer may have a storage depot and sell from his wagon in one city, the new license law limits him to that one. Like any other holder of a retail license he can not have an interest in any other place. A local brewer may sell his product from wagons without a license or without paying the \$1,000 annual tax, and can even have storage warehouses from which wagons may be sent, while the foreign brewer must pay the \$1,000 tax and be limited to one place. That a big protest will arise is taken for granted.

## SAD ENDING OF HASTY UNION

## YOUTH AND HIS BRIDE IN SUICIDE COMPACT

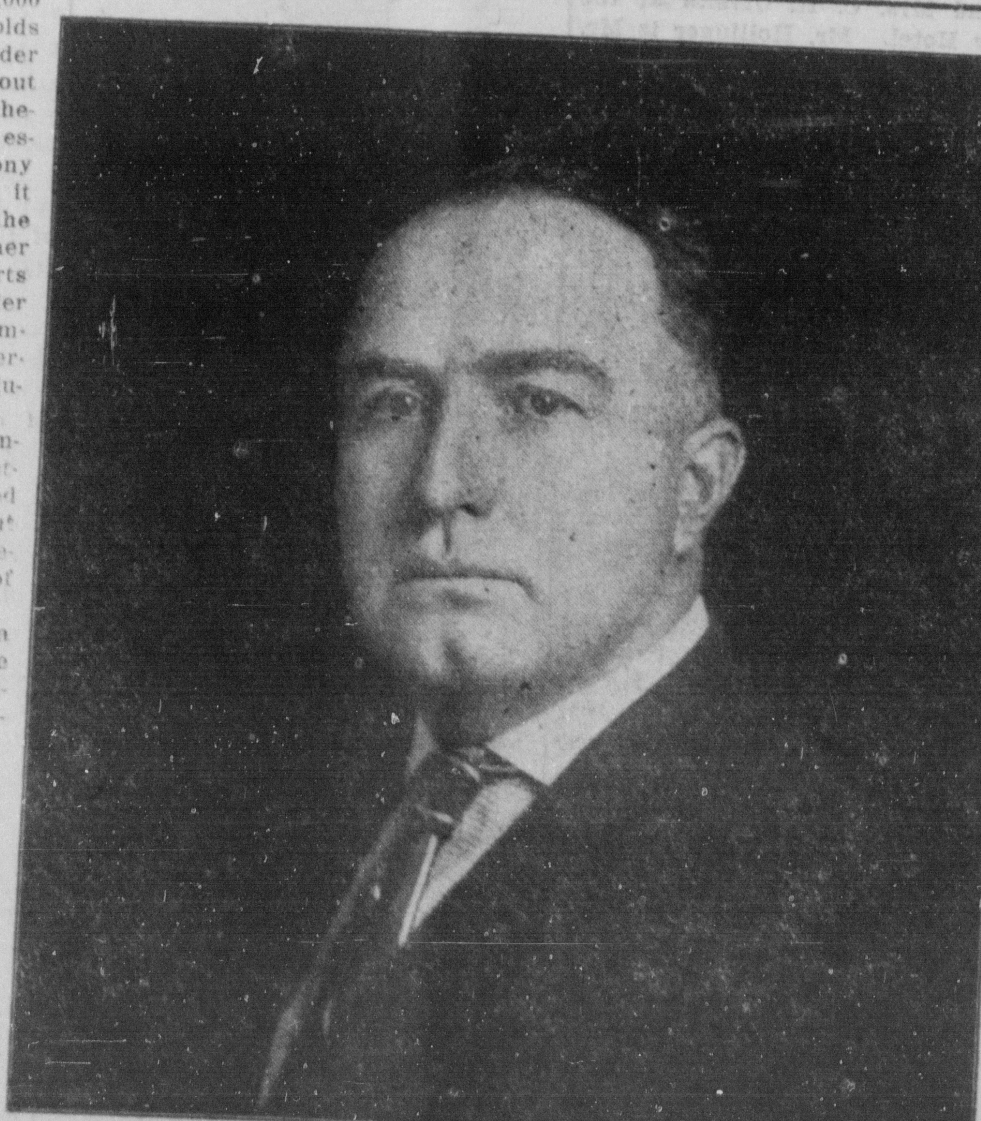

Death the Easiest Way Out, Reads Note Found on Body.

Atlantic City, N. J., Nov. 3.—Lying side by side in the woods at Northfield, a gaping bullet wound in the temple of each, James F. Bly, 18, a medical student who came here from Pittsburgh a year ago, and his equally youthful bride, who was Miss Rose Herring, 19, of this city, were discovered by Harry Pierce, a hunter. The discovery of the bodies reveals a tragic romance that had its inception here last June and brings to a close the frantic search conducted by the relatives of both the young people since their disappearance early in September. Letters discovered on the bodies of both the boy and girl indicate that they had entered into a suicide pact as the only solution of the difficulties by which they found themselves enmeshed through their secret wedding.

Despite the opposition of the couple's parents to the infatuation which had sprung up between young Bly and Miss Herring last June, the youthful couple are said to have married on Aug. 20. A letter signed by each of them and found in the clothing of young Bly reads: "Death is the easiest way out. Rose will kill herself first and I will follow."

That this had been the plan followed is indicated by the position in which the bodies were found. The bodies were terribly decomposed.
